DETAILED ACTION

Allowable Subject Matter

Claims 21-30 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art of record fails to teach nor suggest providing a liner that exerts the selected one of compressive stress or tensile stress on the active region made from a material having a relative permittivity (K) of about 10 or more, as recited in claim 21, in combination with the other recited elements. Claims 22-30 depend from allowed claim 21 and act only to further narrow the allowable subject matter and are therefore also deemed to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
